

REMARKS

This response is intended to correct the mislabeled claim identifier for claim 32. It is now respectfully submitted that the claims presented are in order for examination. The remarks of the last filed amendment are incorporated herein by reference thereto. It is respectfully submitted that the claims remaining in the present application be passed to issue.

Applicant would like to thank the Examiner for granting Applicant's representative, Richard Klar, a telephonic interview on September 8, 2006. The Examiner agreed that the claim language proposed and now reflected as new claim 34 would be allowable over the cited prior art of record. Independent claim 33 recites similar subject matter for a system instead of the method of new independent claim 34. The claims remaining now depend, directly or indirectly, on new claims 33 and 34 and are thus believed to be allowable over the cited prior art of record.

Respectfully submitted,
